

iPSC generation fees

iPSC generation fees	Internal fee €	Public external fee €	Private fee €
Original cells			
Derivation of primary culture (skin biopsy)	320	370	570
Expansion of frozen fibroblasts or keratinocytes	150	280	380
Cell isolation from peripheral blood	150	185	280
Cell isolation from cord blood cells	200	240	340
Cell isolation from urine sample (epithelial cells)	225	280	485
iPSC generation			
iPS generation/Retrovirus	2330	2855	3970
iPS generation/Sendai virus	3225	3950	5275
iPS generation/Episomal plasmids	2860	3500	4830
iPS generation/mRNA	3500	4270	5500
iPSC characterization			
Karyotype (x 2 clones)	435	530	630
Microsatellites (original cells and iPSC)	175	210	260
Pluripotency	395	485	565
In vitro differentiation (Embryoid bodies)	510	620	730
In vivo differentiation (Teratomas)	1075	1320	1350
Banking	600	740	860
Registration in the National Bank of Cellular Lines	300	300	300
Assignment of registered PSC lines	500	500	500

(21% IVA not included)
